Consat
Innovation Partner

Consat's journey began in 1986 and today has offices in Sweden, Norway, the Netherlands, Australia, Canada, India and Brazil. Together with our partners, we have carried out a number of projects that work for a better and brighter future. That is why we are incredibly proud and honored that so many choose Consat as their main provider of complex engineering services. CONSAT ORAHI is a Joint Venture between CONSAT ENGINEERING AB and Orahi India. Orahi is 10-year-old company in providing Platform as a Service (PaaS) for Internet of Things (IoT) businesses. This JV brings strengths of both the parent companies

CONSAT ORAHI is engaged with multiple European customers in Electrical Vehicle Engineering, EV charging Management, Smart Agriculture, Smart Homes and Smart healthcare segments.

In IOT space, everything is a device with communication capability, we connect with these devices and make them intelligent through our platform using Artificial Intelligence and Machine Learning.

Complete Software and Electronics Integration is currently integrating and testing the next generation of embedded software system towards new generations of cars. To support future platform updates there is now a need to add teams to strengthen the development effort to speed up the integration and to increase software quality.

Job brief:

Profile: Tech Intern (AI), Eligibility – Fresher, Location – Gurugram

Are you passionate about shaping the future of AI? Join us as an **AI Intern** and contribute to high-impact projects that leverage the latest in Artificial Intelligence. This is a unique opportunity to gain practical experience with Large Language Models (LLMs), Retrieval-Augmented Generation (RAG), and AI Agents, while working alongside a dynamic and supportive team.

You'll apply your technical skills in Python, SQL, and TensorFlow to tackle real-world challenges, and help create intelligent systems that drive meaningful outcomes.

Job responsibilities:

- Collaborate with engineers to develop and fine-tune machine learning models using TensorFlow and other leading ML frameworks.
- Explore and implement LLM-powered architectures, including RAG pipelines and AI agents.

- Build and optimize data workflows using Python and PostgreSQL for data processing and management.
- Contribute to the design of scalable AI systems that deliver performance and efficiency.
- Work cross-functionally with product and engineering teams to integrate AI-driven features and insights into live systems.

Requirements:

- Strong programming skills in Python for data analysis and machine learning.
- Familiarity with SQL (preferably PostgreSQL) for data handling and transformation.
- Hands-on experience or academic projects involving TensorFlow and neural networks.
- Understanding of LLMs (e.g., GPT, BERT), RAG methodologies, and autonomous agents.
- Solid problem-solving skills and a curiosity-driven mindset.

Bonus Points For:

- Experience with LangChain, OpenAI APIs, or similar LLM development tools.
- Prior internships or projects in AI/ML, natural language processing, or related fields.
- A team-first attitude with the ability to thrive in both collaborative and self-driven settings.

Why Join Us:

- Learn from experienced AI practitioners through direct mentorship.
- Work on real-world problems with immediate impact and relevance.
- Be part of a culture that values innovation, creativity, and continuous learning.
- Potential pathway to a full-time role based on performance and mutual fit.

BENEFITS

At Consat Orahi, we know that great people make a great organization. We value our people and offer employees a broad range of benefits.

- A pleasant working environment with strong focus on flexibility and work-life balance
- Working with state-of-the-art technologies on development of premium brand cars
- A chance to boost up your career in a multi-national company
- Participation in a benefits program consisting of premium health insurance package, tea/ coffee, snacks, fresh fruit and lunch facility.
- Bonus programmes i.e., yearly bonus, employee awards
- Accommodation: This position offers accommodation facility for few days after joining based on candidate eligibility.

OUR PEOPLE AND CULTURE

Our diverse, equitable, and inclusive culture empowers our people to be who they are, contribute their unique perspectives, and make a difference individually and collectively. It enables us to leverage different ideas and perspectives, and bring more creativity and innovation to help solve our client most complex challenges. This makes Orahi one of the most rewarding places to work.

PROFESSIONAL DEVELOPMENT

From entry-level employees to senior leaders, we believe there's always room to learn. We offer opportunities to build new skills, take on leadership opportunities and connect and grow through mentorship. From on-the job learning experiences to formal development programs, our professionals have a variety of opportunities to continue to grow throughout their career.
